Bid No. 18-007 Voice over Internet Protocol (VoIP) Integrated Voice and Data System
Equipment and Installation (not cloud based)

The Roanoke Regional Airport Commission is seeking bids for all labor, materials, and equipment for the purchase and installation of a MITEL or equivalent Voice over Internet Protocol (VoIP) integrated voice over data system including approximately 75 phones, voicemail, and unified messaging system (not cloud based) ("SYSTEM") as specified within the bid documents to replace the existing telephone system. The new telephone, voicemail, and unified messaging systems shall provide a uniform communication system for all Commission facilities and shall be expandable at the convenience of the Commission. System must be onsite VoIP solution which utilizes SIP TRUNK TECHNOLOGY and meet the following requirements:

- ✓ All control and management software will be installed on Commission-Owned hardware;
- ✓ Software must be licensed so that unified communications and/or collaboration options may be utilized;
- ✓ All connections to the system will be made utilizing Commission infrastructure;
- ✓ Any future upgrades will be made at the discretion of the Commission; and,
- ✓ The system must not include any monthly expenses.
